-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 September 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-7 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1-7 is/are allowed.
- 6) ☐ Claim(s) _____ is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

1. This Office action is responsive to the application filed 09/04/2003. Claims 1-7 are presented for examination. On pages 8 and 23 insert the application numbers and delete the attorney docket numbers. On page 7, delete the attorney docket numbers.
2. Applicant and the assignee of this application are required under 37 CFR 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application.

The examiner requests, in response to this Office action, any documentation known to qualify as prior art under 35 U.S.C. sections 102 or 103 with respect to the invention as defined by the independent claim(s). That is, any prior art (including any documentation used to develop the disclosed/claimed subject matter, background art and any products for sale) similar to the claimed invention that could reasonably be used in a 102 or 103 rejection. The examiner is specifically looking for snapshots having 3 tables where the tables contain pointers to other tables and/or a base volume. This request does not require a search. Support for this request is derived from 37 C.F.R. 1.56 and 1.105, however, it is not intended to interfere with or go beyond that required under 37 C.F.R. 1.56 or 1.105.

In the present disclosure, the Background section identifies several prior art devices and/or systems. In response to this Office action, the examiner requests a discussion of which, if any, independent claim features (claims 1 and 5) correspond to prior art elements in the background documentation. Since applicant is most knowledgeable of the present invention and

Art Unit: 2185

the background art, a discussion of the background art with respect to the instant claims is essential. That is, for each claim limitation identify a corresponding prior art element by page, line, and/or fig. The examiner is specifically looking for prior art elements corresponding to any of the following independent claim limitations. Again, this request is derived from 37 C.F.R 1.105 and will assist in prosecuting the application. The following list appears to represent the main invention(s)/embodiment(s)

A base volume

A snap shot.

A first table having a pointer to another table.

A second table having a pointer to another table.

A third table having a pointer to another table or the base volume.

A second snapshot.

Additionally, the examiner requests a discussion of which, if any, present independent claim features correspond to prior art elements in the IDS documentation filed 08/12/2005. Here again, the examiner is specifically looking for claim limitations in the list above. For each claim limitation identify a corresponding prior art element by page, line, and/or fig. Again, this request is derived from 37 C.F.R 1.105 and will assist in prosecuting the application.

The request may be fulfilled by asking the attorney(s) of record handling prosecution and the inventor(s)/assignee for references qualifying as prior art. A simple statement that the query has been made and no prior art found is sufficient to fulfill the request. Otherwise, the fee and certification requirements of 37 CFR section 1.97 are waived for those documents submitted in reply to this request. This waiver extends only to those documents within the scope of this request that are included in the applicant's first complete communication responding to this

requirement. Any supplemental replies subsequent to the first communication responding to this request and any information disclosures beyond the scope of this request are subject to the fee and certification requirements of 37 CFR section 1.97.

In the event documentation (e.g. newly submitted/previously submitted on an IDS, incorporated by reference or “common knowledge” generally found in the background section but not a publication) is determined to qualify as prior art, a discussion of relevant passages, figs. etc. with respect to the claims must be provided. That is, for each **independent** claim limitation listed above identify a corresponding prior art element by page, line and/or fig. Since applicant is most knowledgeable of the present invention and submitted art, a discussion of the reference(s) with respect to the instant claims is essential. Again, this request is derived from 37 C.F.R 1.105 and will assist in prosecuting the application.

The examiner also requests, in response to this Office action, a showing of support for the following: All claim language found in the present independent claims since the independent claims do not appear to be present in the priority application(s). Support for the independent claim language must be shown in the priority application; Claim language added to any present claim(s) on amendment and any new claims. Indicate support for claim language by specifically pointing to page(s) and line no(s). in the specification and/or drawing figure(s).

Additionally, in the event documentation is incorporated by reference (e.g. prior commonly owned patent applications found on pages 7 and 23) and is relied upon for supporting claim limitations, such supporting documentation and limitations (independent claims only) must be identified. The present claims were not present in the provisional application at the time of

Art Unit: 2185

filing thus direct support is absent. Therefore, it is difficult to say, with certainty, whether the incorporated material provides the necessary support or the priority application.

This will assist in prosecuting the application. Here again, this request is derived from 37 C.F.R. 1.105.

This Office action has an attached requirement for information under 37 CFR 1.105. A complete reply to this Office action must include a complete reply to the attached requirement for information. The time period for reply to the attached requirement coincides with the time period for reply to this Office action.
